

MAXIMUS[®]

Hydraulic Oil 68

MAXIMUS Hydraulic Oil 68 is blended from high quality mineral oils with a high viscosity index and low pour point. This oil gives a long trouble-free service life and will be chemically stable under severe operating conditions of temperature, pressure, power densities and fluid flow. It provides excellent protection against corrosion, and resistance to emulsification and oxidation.

MAXIMUS Hydraulic Oil 68 meets the following standards:

- DIN 51524, Part 2
- Cincinnati Milacron P-69
- AFNOR NFE 48-691 (wet)
- AFNOR NFE 48-603 (HM)
- Vickers I-286-S, M-2950-S
- VDMA 24318
- Denison HF-O, HF-1, HF-2
- SS 155434
- ISO 6743/4 (HM)
- US Steel 127, 136
- SEB 181 222
- Racine, variable volume vane pumps
- Commercial Hydraulics
