

## HR - PRESSURE COMPENSATED LANDSCAPE DRIPLINE

Suitable for Lawns, shrubs, trees and flower beds. Ideal for slopes and long narrow applications, on surface, under mulch or subsurface installations

### FEATURES

- Self regulating round dripper
- Uniform flow rate along drip line length
- Suitable for use with standard 13mm LD fittings
- Size 12.5mm ID and 14.5mm OD
- Brown UV protected tubing is durable under sunny conditions and blends with ground or mulch colours.
- Dripline has dual outlet ports on each dripper to ensure that only one outlet has contact with the ground, eliminating a chance of back-siphoning debris into the tubing.
- Manufactured in Australia
- Round dripper with wide water passages which provides high resistance to blockages.
- Two inlet filters per dripper
- Self cleaning, water flow in dripper labyrinth flushes out sediments continuously
- Durable tube for years of trouble free use.

### SPECIFICATIONS

- Dripper flow rate 2.1 lph Pressure Compensating
- Standard dripper spacing of 0.3m available
- Recommended working pressure 50 to 350 kpa
- Maximum single lateral run length 88m
- Recommended filtration 120 mesh
- Coil lengths 50, 100

| MODELS  | CODE       |
|---|------------|
| 30cm x 2.1 lph Pressure compensated 100m roll | HRDPC10030 |
| 30cm x 2.1 lph Pressure compensated 50m roll  | HRDPC5030  |
